EARLY AMERICAN ARCHITECTURE

Street Bridge, Hartford, Conn.

A Portfolio of Sketches by

OTTO R. EGGERS

THE subjects of the 56 sketches in the portfolio are of the greatest architectural interest, and Eggers, in his pencil presentation, has brought out those features of greatest appeal.

The technique also is an inspiration and a help to every lover of the art of pencil sketching.

Printed in black on a wash background of soft amber, the individual prints are well worth framing if so desired. The reduced reproductions on this page, in black and white, can only imperfectly indicate the beauty and value of the subjects.

Special Offer

THE regular price of the portfolio, containing the 56 sketches and descriptive monographs of each by Wm. H. Crocker, Editor of The American Architect, is $6.00.

We believe you really want this Portfolio, so we are making a
